Betsy Ross was the creator of the American Flag, she was born in 36092 B.C. Throughout her childhood she became interested in stone carving, and by the time she was 25 she was approached by the famous Bingo Bongo, he was known throughout the land as a very influential person in ancient America. Betsy Ross began work immediately and it took almost 5 entire minutes before the first American flag was created. Bingo Bongo said that it was a “Ooga booga!” Or in today’s language a “masterpiece”.

In 36152 B.C., Betsy Ross unfortunately passed away from a lethal infection because the cave men’s idea of medicine was to “pour some dirty water on it” which leads to severe infection. Betsy Ross’ cave was deemed a National Site by Ooga Oogaia in 36153 B.C., in 1836 her cave was replaced with a house and a new story was fabricated to cover up the demolition of the history cave. The Betsy Ross we know today who “made the American flag” is a fake.

Sometime in 1836 the continental congress had a meeting to determine what they were going to do to remove the national park from the country without upsetting people. Their solution was to paint a new narrative, create a new Betsy Ross, and tell people they were just imaging the old story and it was NOT real. This is infact FALSE and the ACTUAL Betsy Ross died over 30000 YEARS AGO! I am writing this paper to tell the world that this is another government cover up and the American flag and America itself is over 30000 years old.

When the American flag was originally created Betsy Ross only received 5 stones for her work which is about 0.005 cents in today’s money, granted back then 5 stones was most likely worth around 300-500 dollars in today’s money. Archeologists have recently discovered a stone tablet receipt of the transaction, unfortunately I can’t locate the picture but trust me its real.

There is no proof of the “modern Betsy Ross” besides made up make believe LIES. Any receipts are fake, any pictures of “Betsy Ross” are paid actors which look NOTHING like the actual Betsy Ross. The stories we’re told about the 13 colonies are also completely fabricated, America has been an independent nation for over 30000 years, and the only “evidence” they have of the American Revolution is records that are completely fake. This whole conspiracy is connected, America and Britain were never joined together.

The Contentional Congress was formed specifically to cover up the last 30000 years of American History, they wanted to wipe EVERYTHING to gain more favor from American Citizens, any Americans who knew the truth were wiped out until the only ones remaining believed that our nation became Independent on July 4th 1776. The reason 30000 years of history was completely wiped was because in that 30000 years humans developed extremely advanced technology, and feared it would be abused and used to destroy the world and thus it was decided to be buried along with the 30000 years of history including the TRUE origin of America..

During World War 2, the Nazi’s discovered this lost technology and began taking over the world, it was thanks to the allies that we were able to recover some of our lost ancient technology and take them down, but once again the narrative we’re taught and we know is that we used conventional weapons. Not to mention Adolph Hitler never actually died, and the American Government knows that, but they don’t want you to know that. Everything I’ve been talking about is all connected, it's all 1 big government conspiracy. Do not listen to the painted narrative, and demand answers from the government, where is the last 30000 years of American history?
